001	Section 2.3	8	Eligibility	According to 2010 Insurance Code (per the grant documents- this is where to find out if we are rural or urban), our organization in [REDACTED], TX is mostly urban. I am afraid we would not qualify according to the stipulations in the grant qualifications.	The population and definition of “rural area” in Section 845.002 of the Texas Insurance Code would qualify your organization as serving a rural area community. Per the definition of “Nonurban healthcare facility” in Section 541.001 of the Texas Government Code: (1) "Nonurban health care facility" means a hospital licensed under Chapter 241, Health and Safety Code, or other licensed health care facility in this state that is located in a rural area as defined by Section 845.002, Insurance Code.
