Subject: Long Term Care  
CMS Information Letter No. 2001-04  
New Service Codes Effective September 1, 2001

Effective September 1, 2001, new service/bill codes will be implemented in certain Community Care for the Aged and Disabled (CCAD)/Waiver Programs. These new service/bill codes are attached to this information letter.

The primary change is the addition of new service/bill codes to supplement for existing service codes with multiple services grouped under one. For example, in Service Group 3, requisition fees for adaptive aids, medical supplies, and minor home modifications are currently grouped under Service Code 41. Two new service codes were assigned to Service Group 3 requisition fees. Requisition fees for adaptive aids are now authorized using service code 41; medical supplies 41A; and minor home modifications 41B.

**About the Attachments**

Information Letter No. 2001-04 includes two attachments:

1) The first attachment is titled "**LTC Service/Bill Codes Ending 8/31/2001**". This attachment is a snapshot of service codes currently used by provider agencies that will discontinue after **August 31, 2001**. After **September 1, 2001**, provider agencies can use these service codes **ONLY** when billing for services provided on or prior to **August 31, 2001**.

2) The second attachment titled "**LTC Service/Bill Code Table**" is an all-inclusive list of service codes. It includes current (those ending **August 31, 2001**) and new service codes effective **September 1, 2001**. Service codes indicated with an \* and in **bold** are the discontinued service codes. The new service codes must be used only when billing for services provided after **September 1, 2001**.

### **Why New Service/Bill Codes?**

Assigning new service codes ensures that payment information is reflected at the service code and not at the bill code level. It allows the department to break up the service authorization into a more limited category that allows for better tracking of what is being purchased for each individual service and provides more accountability.

### **Review of Client Cases**

Texas Department of Human Services (DHS) caseworkers are reviewing their CCAD/CBA caseloads in **May and June 2001**, to identify client cases affected by the service code changes. They will be data entering changes to the Service Authorization System (SAS) beginning **July 5, 2001**. Provider agencies will be receiving a copy of the SAS data entry screen indicating updates to the service codes soon after **July 5, 2001**. The latter part of July, provider agencies may begin requesting Medical Eligibility Service Authorization Verifications (MESAVs) to validate that the client's service authorization has been updated by the caseworker.

### **Updates to Provider Agency Contract Files**

Contract managers will be updating provider agency contract files to add the new service codes in **June and July**.

### **Impact on Cost Reporting**

Assignment of new service/bill codes should have no impact on reporting of information on cost reports.

### **Update to CMSconnect/TDHconnect Databases**

Provider agencies are encouraged to begin updating their databases with the new service codes upon receipt of this information letter to ensure a smooth implementation of the

service/bill codes. In programming provider agency databases, agencies are reminded that the record size of the service code field is five (5) digits not three (3).

### **Summation**

The attachment titled "**LTC Service/Bill Code Table**" is an all-inclusive list of service codes. It includes current (those ending **August 31, 2001**) and new service codes effective **September 1, 2001**. The new service codes must be used only when billing for services provided after **September 1, 2001**. Service codes indicated with an \* and in **bold** are the discontinued service codes.

Should you have any questions about this information letter please contact your regional contract manager.

Sincerely,

[signature on file]

Becky Beechinor  
Assistant Deputy Commissioner  
Long Term Care Services
